6. **Special Project Time (SPT)**

Special projects shall be completed and turned in on the final day of class. Choose one of the following options for this requirement:

a. Purchase or construct an unlined journal/blank book in which to visually explore a family theme such as one of the following:

   The Good Son/ The Good Daughter  
   Closets and Secrets  
   The Ins and Outs  
   The Elephant in the Living Room  
   All Tangled Up
While there is not a specific requirement for number of entries, they should all relate to the unifying theme and there should be a sufficient number of entries to create a sense of cohesiveness and closure to the book. Written text may be included in the book along with imagery, at the discretion of the student. Include with the book a 2 to 3 page reflection paper on your chosen theme and how your work relates to this theme.

b. Construct a chronological time line and/or visual map of events in your family that most impacted your life. Focus in more detail on one of the events that marked a time of important transition and/or loss for you. Create a 3-dimensional marker or Descansos (as described by the reading from Clarissa Pinkola Estes) which symbolically honors this life event. Include a 2 to 3 page reflection paper describing the event and its relationship to the imagery used in your Descansos.

c. Create either a 2 or 3 dimensional art work that visually represents your own family of origin. See examples in Kerr pages 58-60. Include a 2 to 3 page reflection paper on how your piece relates to the family system.

7. **Writing Guidelines including APA Format**

8. **Assessment/Evaluation Procedures**

8.1 Final Paper and Presentation (35 points).

Choose one of the following options:

- a. Choose a fictional family from a movie, novel or similar source. Create both a genogram and a visual/symbolic representation of this family system. Describe what issues might bring this family to therapy and how you would approach working with them as a family art therapist. Detail at least 3 sessions with the family including your fictional account of what occurs in session and how the family responds to the art therapy process. Include your impressions of whether the intervention is successful and what further recommendations you would have for the family.

- b. Focus on a specific presenting issue which a family might bring to therapy. Consider how a family art therapy approach would differ from an individual therapy approach. When working with this issue, what family theories might guide your work as a family art therapist? This paper must be written in APA format and include references and a bibliography.

8.2 Special Project Time (35 points)
