

AGSAA Continuing Professional Free Workshop and Presentation Guidelines

AGSAA is committed to provide high quality continuing professional workshops and presentations for our alumni, graduate students and affiliates. The free workshop and presentation events will provide opportunities for the alumni, graduate students and affiliates to engage in professional networking, enhance higher learning and research ideas that will benefit the field of clinical psychology.

AGSAA also welcomes students who are nearing graduation to present their thesis projects to fulfill requirements. AGSAA is happy to invite alumni professionals to share their topics of interest, expertise, and knowledge.

Typically, the workshop is two hours in duration but this can be negotiated depending on the topic and the amount of information being presented. The date and time of the workshop will be also negotiated to attract most participants and in accordance to AGS's room use policy (<http://www.alfredadler.edu/about/need-meeting-space>). Please send your proposals, questions and inquiries regarding workshop and presentation opportunities to, adleralumnimn@gmail.com

For alumni and graduate students wanting to present their topics, please send the following information.

- Title of the workshop
- Brief bio/profile of the presenter (one to two paragraphs)
- Outline of the workshop
- Key learning points/outcomes

The presenters are able to use the copying machine for the handouts and the PowerPoint projector provided by the school. The alumni executive committee will review the workshop proposal and make the final decision. Thank you.
