

Mentoring Program

The mentoring program is a great opportunity for alumni seeking to contribute to the Adler Graduate School in a meaningful way. It allows the alumnus to stay involved with their alma mater and to make a positive difference in students' lives.

The mentoring program is also excited about offering "Mentor Drop-In" events. Three days a month alumni mentors will be available on campus from 4:00 PM to 6:00 PM to answer student's questions about mentoring, provide some general advice and offer academic help to those that may want it. Check the Alumni webpage for the "Drop-In" dates.

Through this mentoring relationship, students may grow in their personal and professional development. Alumni and students who are interested in the mentoring program should contact Priscilla MacDougall, the Mentoring Program Coordinator at: agsmentor@mail.alfredadler.edu .
