

DOCUMENT TITLE: Persistence Rates 2016 to 2019

ORIGIN: Office of the Registrar

SUMMARY: This document shows that the college-wide persistence rate for AGS has stayed between 88 and 92% for 10 out of 11 terms between 2016 and 2019. The one exception was Spring 2016-17, when the rate was 86%.

**Persistence Rates 2016 to 2019**

<b>Academic Year</b>	<b>Summer Term</b>	<b>Fall Term</b>	<b>Winter Term</b>	<b>Spring Term</b>
2018/19	88%	92%	88%	
2017/18	89%	92%	91%	90%
2016/17	89%	90%	92%	86%

Persistence is computed by comparing one term of enrollment with the next term to determine how many students persist from term to term. Students completing their Master's Project are considered persisters and are reflected in these numbers.
